NCTRC Continuing Education Pre-Approval Review Process

The Pre-Approval Review Process is designed to assist certificants to determine whether completed continuing education will meet current recertification requirements before submitting a formal recertification application. This process will allow for confirmation of continuing education to certificants who are not certain if previously completed continuing education will meet NCTRC recertification requirements. This process is available to all current CTRSs and can be utilized at any time during the five-year certification cycle.

Application Process

- Completed continuing education or academic coursework will qualify for review.
- Complete the application form. Type or print all information in ink. Do not use pencil. (Note: a copy of this application is available online at www.NCTRC.org.)
- Please list the title of the continuing education course(s) you would like to have reviewed under the appropriate section on the application.
- The Pre-Approval Review fee is \$35.00 per application submission (multiple course listings per application are permissible). Please submit the \$35.00 fee with the application.
- Please attach original, official certificates and/or transcripts of the continuing education and all related information (as necessary) describing the content of the course(s). This request pertains to courses in which the title is not clearly defined on the certificate or if the course content is not clearly presented.

Review Process

- Continuing Education Pre-Approval applications will be reviewed by a NCTRC Credentialing Specialist using current NCTRC recertification review procedures. The application review will be completed within 4 weeks of receipt.
- Acceptance of submitted continuing education will be noted on the application form under "Review Decision".
- An official notification will be sent by NCTRC regarding the outcome of the pre-approval review.
- All documents will be returned upon completion of the review by postal mail.
- If a CTRS is selected for a recertification audit review, then a copy of the official notification review form should be submitted with all pertinent recertification materials.

Please Note:

- The Continuing Education Pre-Approval Review Process is not intended to replace the formal Recertification application process.
- Certificants who receive notice that submitted continuing education was not approved will have no formal process of appeal. However, the certificant can submit an application for Recertification and use the formal appeal process associated with this application procedure to present their case.
- It is the certificant's responsibility to monitor changes in the *NCTRC Certification Standards*. Continuing education pre-approval is limited to the current 5 year recertification cycle and the application of the current *NCTRC Certification Standards*.
